## A CLEAR CASE OF MURDER

In a friendly conversation this morning one of Reno's most competent physicians said that inside of 10 years this place would be very unhealthy. He said the soil to a depth of 30 feet would be so poisoned that a dreadful loss of life among children and weak persons would occur. This is a most important subject, and the people of Reno are making a great mistake to neglect it. We cannot afford to sacrifice our loved ones through carelessness or stinginess. Less than \$5,000, all told, would give us perfect drainage and save much suffering and loss of life. The saving in doctors' bills would be good interest on the money. We all know what an awful affliction the loss of friends is. Now, let us use ordinary judgment and try to stop one great source of danger.

## TOO MUCH TRIFLING.

If a lot of sick old women were turned loose upon the fierce Apaches they would probably accomplish more than the regular troops have done, so far. General Crook is a noted Indian fighter, but his movements are hampered with red tape by the old fogies at Washington, who in turn are worked upon by a New England society, the members of which sympathize strongly with the hideous devils now murdering, ravishing and plundering right and left through Arizona and New Mexico. If the Government would advertise for proposals to annihilate the savages, a contract would speedily be let to parties who would effectually dispose of every redskin in the two Territories in less than two months.

## EDITORIAL NOTES.

That there will be a fine opportunity for California wheat this year is undeniable. The wheat outlook in Ohio is reported as the gloomiest for eight years. Kentucky, compared with last year, will raise only 70 per cent. The loss in winter wheat throughout Indiana, Illinois, Kansas, Kentucky, Michigan, Wisconsin and Minnesota will reach 30 per cent.

A good example of extraordinary profits in farming is found in the case of a Los Angeles man, who last year bought 100 acres of land at \$40 an acre, ploughed and planted it with alfalfa, and will this year cut three crops, worth \$40 an acre, or just the price of the land. Next year he expects the crop will be worth \$80 an acre.

A party of Colorado stock men have been in Tehama county buying sheep, which they intend to drive over the mountains. They have already bought 10,000 and are looking for more. California is a large exporter of stock. Many thousand head have this year been sold in Los Angeles for shipment to Texas.

The information received by the GAZETTE a few days ago, concerning a railroad riot at Ogden, was deemed reliable, and therefore published. It seems that railroad men and telegraph operators are as skillful at building "baseless fabrics" as the ordinary newspaper reporter.

The first number of the *Illustrated World*, published at Philadelphia, has made its appearance. It is an elegantly-printed paper of 16 pages, finely illustrated, and altogether first-class.

The County Board have done nothing with the Verdi bridge. It is very much needed. The sand grade costs the county money every year, and is liable any time to make a serious accident.

In Goldendale, W. T., a liquor license costs \$3,000. The condition of affairs in that town recalls the good old days in California when whiskey cost 50 cents a drink.

The heavy frost of last Thursday and Friday nights caused considerable damage in the foothill orchards on the other side of the Sierras.

# EASTERN DISPATCHES.

[ASSOCIATED PRESS.]

**A Slight Scare at the Residence of Lorne.**  
 CHICAGO, April 18.  
 An Ottawa special says: Shortly after midnight one of the special constables on duty at Rideau Hall, the residence of the Governor-General and Princess Louise, heard footsteps on his beat, and on moving toward it shot at where he supposed the noise proceeded from. He whistled and made a rush at the unknown villain, who fired three shots and managed to escape. A double guard was on duty at the time and extra men have since been sent out.

**The Last of the Newhall House Disaster.**  
 MILWAUKEE, April 17.  
 George Scheller, accused of setting fire to the Newhall House on the morning of January 10 last, was today acquitted by the jury. Five ballots were taken and only one of the jurors was for conviction all that time, and he finally gave in because Judge Mallory instructed him that if there was any doubt in his mind he must give the prisoner the benefit of the doubt. The court-room re-echoed with cheers when the verdict was announced.

**Cutting Grain Rates.**  
 NEW YORK, April 18.  
 In noticing the talk of reducing grain rates the *Tribune* to-day publishes the following: No action has been taken by the trunk lines to stop cutting east-bound grain rates. The western railroads receipts of grain at New York are showing a steady increase on the amount received a few weeks ago; but the Erie continues to carry more grain into the city than the New York Central brings to New York.

**A Man and Wife to be Imprisoned for Life.**  
 JEFFERSON, Wis., April 17.  
 Judge Bennett to-day sentenced John Kodach and his wife Barbara, who were both convicted of the murder of Kodach's mother, in this city, on the night of December 6, to the State prison for life, the first day and one day of each year, corresponding to the day of the month on which they committed the murder, to be passed in solitary confinement.

**A Deputy United States Marshal Killed by Outlaws.**  
 LITTLE ROCK, April 17.  
 Yesterday, at Wrona, Texas, United States Deputy Marshal Layman, of the Western Arkansas District, was killed by John Lennox, for whom he had a writ for the murder of two men. Lennox attacked the Marshal's camp, in the Southern Cherokee Nation, with a band of outlaws, who shot and killed Layman, and released some prisoners in his possession.

**The Liquor Question in Illinois.**  
 CHICAGO, April 18.  
 Throughout Illinois yesterday 48 cities and towns voted upon the liquor question in balloting for municipal officers. Seventeen declared for prohibition and anti-liquor; 31 declared for license, and of the latter 6 were for high license. Four towns ignored the saloon question and voted on a straight political issue.

**Where the Danger Lies.**  
 NEW YORK, April 18.  
 A cablegram says: The real danger to Europe at this moment is at Paris, where the men in authority seem to be entirely incapable of understanding the danger to which they are exposing not only the peace of the continent but the very existence of their own country.

**A Trusted Clerk Succumbs to Temptation.**  
 BOSTON, April 18.  
 Seth Kennedy, a trusted clerk of M. S. Page & Co., pawnbrokers, was to-day arrested charged with the embezzlement of \$15,000.

**Disgusting Testimony.**  
 BOSTON, April 18.  
 At the Tewksbury examination, a former inmate gave some startling and disgusting testimony concerning the treatment of inmates.

**A Condemned Murderer Makes a Clear Confession.**  
 MORRISTOWN, N. J., April 17.  
 James Trigtown, sentenced to be executed to-morrow for the murder of Minnie Chigwin, confesses that his statements at the time of the trial against the girl were false. He never knew anything detrimental to her character. He confessed having followed Minnie and Harry James, his rival, along the towpath and attempting to shoot James, but his revolver missed fire the first time, and Minnie, stepping between himself and

James, receiving the second shot. In the struggle both rolled into the canal, and when he disengaged her arms from his neck she was dead. Then he made two attempts at self-destruction. One bullet passing into the back of the ear. The Sheriff thinks this to be the true statement. Trigtown busied himself to-day writing letters to his mother, bidding his brother good-by and conversing with his spiritual advisers.

## BRIEF TELEGRAMS.

[ASSOCIATED PRESS.]

**Condensed Dispatches From All Over the World.**

—The fifth month of the second star-route trial has begun.

—Gray, the defaulter, left Guaymas yesterday for San Francisco in charge of officers.

—At Madrid the scaffold around the Ceramic exhibition building fell, injuring 17 persons.

—Three rafts upset in a great tank at Secundanhah, while loaded with natives engaged in a religious ceremony. There were 62 drowned.

—It is stated that should the Emperor of China refuse the demands of France 1,000 troops and several gunboats will be sent to occupy the strategic points on the Sangkoi river.

—In Minneapolis the license upon saloons has heretofore been \$100. The City Council last night raised it to \$1,500. The saloon men are using every effort to induce the Mayor to veto the bill.

—The failure yesterday of Marshall & Co., iron pipe manufacturers of Boston, was the all-important topic in commercial and financial circles. Their liabilities are now considerably heavier than at first reported, and will not be less than \$1,900,000.

—The Governor-General and the Princess Louise had a cordial reception at Ottawa yesterday. On the arrival of the train the band played "God Save the Queen." As the Princess passed the crowd, on the way to her carriage on leaving the depot, the band played "Home, Sweet Home," and bouquets were thrown into the carriage.

## FOREIGN TELEGRAPH.

[ASSOCIATED PRESS.]

**How They Do Things Elsewhere.**  
 DUBLIN, April 18.  
 In the Curley trial this morning the closing arguments were made and the Judge charged the jury. The latter retired and soon returned and rendered a verdict of guilty of murder, and Curley was sentenced to be hanged May 18th.

**Another Suspect Taken In.**  
 LIVERPOOL, April 18.  
 A man named Eugene Kingston, said to be an invincible and connected with the Phoenix Park murders, has been arrested.

**The Female Anarchist.**  
 PARIS, April 18.  
 Louise Michel has been committed for trial at the next Paris assizes, charged with inciting to riot. She will conduct her own defense.

**The Dynamiters at Work.**  
 LONDON, April 18.  
 A box said to contain explosives was found alongside the cathedral at Salisbury last night. The cathedral is now guarded by the police.

## WESTERN TELEGRAMS.

[ASSOCIATED PRESS.]

**The Disgusting White Girl who Hates with a Chinaman.**  
 SAN FRANCISCO, April 17.

Sarah Burke, who ran away from her home some weeks since and came here with her Chinese lover, Wong Tong Suey, and whose tribulations have taken up so much newspaper space, was married to her celestial bridegroom last Saturday by Rev. Mr. Vrooman, under the legal provision which permits clergymen or Justices to marry without license persons who have been living together as man and wife. The happy pair will take up their residence in Chinatown.

**News From Mormondom.**  
 SALT LAKE, April 18.

The Grand Jury of the third district has been discharged. There were no indictments under the Edmunds law; no testimony offered or attainable. The Edmunds commissioners are expected here daily.

The Oregon Short Line to-day began delivering passengers at the new terminus of the Wood River branch, 22 miles north of Shoshone.

**The Apache Outbreak Troops not Doing Much.**  
 TUCSON, April 17.

A special to the *Star* from Calabass to-night states that a prospector was chased within three miles of that place. The town is surrounded by camp fires, and signals have been going on all day from the surrounding mountains. The citizens are mounted and awaiting an attack. A special train from Camp Huachuca is on the way with troops. Captain Black of the rangers arrived to-day. He says he tracked the Indians who killed McComas, into the Sierra

Madre mountains, Chihuahua. Two scouts got in sight of their camp in Deep Canyon, and counted 60 warriors, and observed a large amount of plunder and a great many animals, and reported this discovery to Captain Black, but as the rangers numbered but 23, he feared to return and make an attack.

General Crook will have supreme command of 150 San Carlos Apaches, to move to Sonora. A most vigorous campaign will be immediately commenced. Both American and Mexican officers believe that annihilation will only make peace possible.

## JOTTINGS.

### Minor Occurrences in and About Town.

Osburn & Shoemaker have a new catarrh cure that is giving good satisfaction.

Cuff and collar boxes at Nasby's. Thermometer at 7, 9, 11, 1 and 3—38, 46, 60, 66, 65.

The Royal sewing machine is the best out. You can get them at Osburn & Shoemaker's.

Trinity church cottage meeting will be held this evening at the residence of E. W. Crutcher.

J. F. Judge will to-night ship to San Francisco seven car-loads of beets, bought of Louis Dean.

Five cars of immigrants went westward last night. One car was filled exclusively with Russian Hebrews.

There was a sudden rise in the Truckee last night, caused by a dam breaking or a driftwood gorge giving away.

A considerable number of Chinamen are going east, among them are some of the solid attaches of the Six Companies.

Ten car-loads of young oysters have gone west during the past 24 hours, consigned to Morgan & Co., San Francisco who will plant them in the bay.

Johnny Belz's razors slide over the chin as if there were no beard in the way. He is a barber of great dexterity, and his services are appreciated by all who patronize him.

J. H. Flickinger of San Jose has been buying cattle in Plumas and Lassen and elsewhere north of us. They will probably arrive here tomorrow and be shipped below on Friday.

Very fine cigars at Davis & Son's. A new brand just received is pronounced perfect by all who have tried it; besides, they have a splendid assortment of pipes and tobaccos.

A. Banta has a thoroughbred Jersey bull, four years old, and one span of Norman horses, five years old, for sale cheap. Here is a chance for a bargain. See 50-cent column.

The grocery store of J. K. Everett is as well patronized as ever, and better, too. His business motto has become popular in most of the households in Reno, as it is known that he keeps the best goods and sells at the lowest prices.

A three-legged jackass has been born somewhere over in California. How he will look in a fashionable suit of clothes cannot yet be determined, but if Abraham's Bros. of the White House can't make him appear like a thoroughbred it will be useless for anybody else to try it.

Strangers agree that the Wine House is one of the finest places on the coast. It is, in fact, an elegantly appointed saloon, containing a stock that few houses can afford to carry. The wholesale department is doing a large business in filling orders from outside patrons, which is increasing every month. A call at this establishment will convince anyone that the Wine House is a great institution.

## PERSONALS.

Brief Mention of the Movements of Notables and Others.

G. W. Todhunter is in town.

D. A. Bender was in town to-day.

Col. A. C. Ellis, Carson is in town to-day.

United States Marshal Corbett is in town to-day.

Geo. Humphreys, the cattle man, is in from Sierra Valley.

A. S. Mattison of Long Valley, and W. F. Hoffman of Rye Patch are at the Palace.

C. J. Brookins will leave next Monday on a business trip to the East, to be gone several weeks.

J. W. Varney, who formerly furnished music for Reno, is running a dancing academy in Portland, Or.

### The Center of a Good Country.

The once brisk town of Corinne, Utah, has suffered quite a dull spell from the loss of its stage lines into the northern country and the freighting business in other directions. The Utah Northern built an arm down there and ran it a while, but the track has been taken up. A revival is promised now, and there is much to encourage those who have held on. Among the institutions that interest people in Nevada, is the large egg business, which could easily supply all Nevada if necessary. The foremost house in that line is that of Krigbaum & Co., successors to J. W. Guthrie. They have the best facilities in that country and gather up all the produce of a large and rich area. Nevada dealers, who need produce of any kind, can do well with them. Mr. Guthrie will hereafter devote his entire attention to his banking business. He has a bank in Corinne and another in Ogden, with connections all over the world.

### The Best Disinfectant.

The vapor, or smoke, or whatever it is called, that comes from the chimney of the Mint, says the Tribune, is the very best disinfectant Carson could have, and if the Mint building was situated more to the southward there would never be an epidemic disease prevailing.

## AS IT MIGHT BE.

### A Platitudes for the Entertainment of Thoughtful Grangers.

It is not necessary in this age of the world for the farmer to rise in the middle of the night and begin his work. The getting up so early in the morning is a relic of barbarism. It has made hundreds of thousands of young men curse the business. There is no need of getting up at 3 or 4 o'clock in the Winter morning. The farmer who persists in dragging his wife and children from their beds ought to be visited by a missionary. It is time enough to rise after the sun has set the example.

In the old times they used to get up about three o'clock in the morning and go to work long before the sun had risen with "healing upon his wings," and, as just punishment, they all had the ague; and they ought to have it now. When you rise at four and work till dark what is life worth? Of what use is all the improved machinery unless it tends to give the farmer a little more leisure? What is harvesting now to what it used to be in old time? Think of the days of reaping, of cradling, of raking, and binding and mowing. Think of threshing with the flail and winnowing with the wind.

Now think of the reapers and mowers and binders and threshing machines and plows and cultivators, upon which the farmer rides protected from the sun. If with all these advantages you cannot get a living without rising in the middle of the night, go into some other business. You should not rob your families of sleep. Sleep is the best medicine in the world. Sleep until you are thoroughly restored. When you work, work, and when you get through take a good, long and refreshing sleep.

A great many farmers seem to think that they are the only laborers in the world. That is a foolish thing. Farmers cannot get along without the mechanic. You are not independent of the man of genius. Your prosperity depends upon the inventor.

Farmers should live like princes. Eat the best things you raise and sell the rest. Have good things to cook with. Of all people in your country you should live the best. Throw your miserable old stove out the window. Get ranges, and have them so built that your wife need not burn her face off to get you a breakfast. Do not make her cook in a kitchen as hot as perdition. The beef, not the cook, should be roasted. It is just as easy to have things convenient and right as to have them any other way.

Cooking is one of the fine arts. Give your wives and daughters things to cook with, and they will soon become excellent cooks. Good cooking is the basis of civilization. The man whose arteries and veins are filled with rich blood made of good and well-cooked food has luck, courage, endurance and noble impulses.

## THE LADIES' FAIR.

### Programme for To-Morrow Evening at Kimball Hall.

The ladies are making considerable preparation for the fair and festival to-morrow evening and will doubtless achieve a success, as they do in most all other matters they take an interest in. They will make it a pleasant affair for those who attend. Following is the programme of exercises:

### PART I.

Chorus, "Auld Lang Syne"—by Ye folks of olden time.

Recitation, "Widow Brown's Christmas"—by Bertie Palmer.

Duet, "No, Sir"—by Miss Flora Finlayson and Mr. Cook.

The Little Workers—by 10 little girls.

Tableau—"Simply to the Cross I Cling."

Recitation, "Jane Conquest"—by Mrs. O. Sessions.

Singing by ye folks of olden time.

### PART II.

Overture—Miss Leah Fredrick and Messrs. H. and P. Fredrick.

Solo—by Fanny Russack.

Recitation—by Mr. Laycock.

"The Silent Bell"—a quintette.

Solo—Mrs. Fowling.

Chorus from "La Mascotte."

### Miles Finlen Acquitted.

The ex-roadmaster of Virginia has at last been acquitted of the charge of obtaining money under false pretenses. The case was given to the jury at 5:40 p. m. yesterday, and after about an hour's absence, they returned into court with a verdict of "not guilty." When Finlen was discharged his friends surrounded him to extend their congratulations. On the first ballot they stood eight for acquittal and four for conviction; second ballot, ten for acquittal and two for conviction, and the third ballot was unanimous for acquittal.

### P. N. Marker's Condition.

It is almost impossible for the physicians to come to an accurate conclusion as to the nature and extent of Senator Marker's injuries. They know that his arm is very bad indeed, and they do all that is possible for the relief of pain. To-day there are indications of sloughing near the elbow, but whether it is merely superficial or starts from the bone has not been determined. The doctors, however, are endeavoring to check it by the application of charcoal poultices, etc. It is not improbable that amputation will yet be resorted to.

## CARSON'S PLAGUE.

### The Board of Trustees Guarding Against Scarlet Fever.

The Carson Trustees recently held a meeting to consider what should be done to protect the city against scarlet fever, and recommended that the public schools be temporarily closed. Drs. White and Smart were present by invitation of the Board, and were called upon to give medical and other advice concerning the matter. They read from several standard authorities, among others, Smith, Ziemssen and Hartshorne. The authorities read state in substance that the primary cause of the disease are epidemic and contagious; that while it is rare, nevertheless the fact of a person once having the disease does not preclude the person from having it again; that it is more prevalent with children than adults, and that it is considered the most dangerous of contagious diseases. Drs. White and Smart pronounce the case of Miss Ida Marshall of the malignant type. The Board of City Trustees therefore recommend that the funerals of deceased having died of this disease be conducted privately; only those attending that are necessary, together with the relatives of such deceased persons; and suggest that public services can be held on some other than the day of the funeral.

All clothing, bedding, or other articles not absolutely necessary for the use of the patient should be removed from the sick room. Articles used about the patient, such as sheets, pillow cases, blankets or clothes must not be removed from the sick room until they have been disinfected by placing them in a tub with the following disinfecting fluid: 8 ounces of sulphate of zinc, 1 ounce of carbolic acid, 3 gallons of water. They should be soaked in this fluid for at least one hour and then placed in boiling water for washing. All display should be prohibited at funerals of those who have died of scarlet fever.

## BREAKING UP FORTS.

### Why Does Reno Not Make an Effort to Have a Military Post Established Here?

Orders have been received at Fort Halleck to break up the old fort and abandon it as soon as the Government property can be disposed of. The cavalry company has been officially notified to make preparation to take station at Fort Walla Walla, Washington Territory, and the infantry will be removed as soon as the army material and other property is taken care of, when what remains of the post will be abandoned to the Indians and the elements. A correspondent of the GAZETTE writes from there to ask, "What has been done of late toward securing a post at Reno?" and adds, "In pursuance of the plan to break up all the small posts, forts, Cameron and Hall are now being abandoned, and ere long the time for McDermitt, Gaston and Bidwell will have come. A little enterprise on the part of your citizens will give Reno a good post. It is really the only good point between Fort Douglas (Salt Lake City) and San Francisco. Why do you not make an effort to obtain it?" True enough—"Why do we not make an effort?" It is probable that if concerted action were taken by the people of Reno a military post would be established here, which would be to the town what the Mare Island navy-yard is to Vallejo.

## The Appropriation Made.

The Board of County Commissioners held a special meeting this afternoon to consider the request of District Attorney Alexander for additional counsel in the "Crockett-Kincaid bank embezzlement case." The Board passed the order allowing the District Attorney the privilege of employing such counsel as he deemed necessary to properly try the case, the cost not to exceed \$1,000. Commissioners Sawyer and Frey voted for making the appropriation and Chairman Fogus in the negative. It is understood that the District Attorney will select Col. A. C. Ellis of Carson to assist him.

## Going to Go.

W. F. Steves, who has been in Reno for eight months with Johnny Belz, the barber, is going to Vacaville to take charge of the shop in Surveyor General Davis' hotel. He leaves on the first and will have a fine layout—new shop, new chairs and furniture, bath rooms, etc. Mr. Steves has been very attentive and industrious, and has made many friends here. The folks in the valley will find him every such a gentleman.

## An Oregon Case.

A case is to be tried in Lakeview, Oregon, next Saturday, in which Charles Bowling of Fort McDermitt, and John Vance of Quin River are interested. Three witnesses, McColey, Moulder and Mortimer left this morning to attend court. They go by stage to Fort Bidwell from Reno, thence by private conveyance to Lakeview.

## A Cattle Trade.

Wm. Hope and Barney Horn have bought about 100 head of beef cattle of A. P. Anderson of Winnemucca.

## A MEADOW LAKE BARBER.

### Difficulty of Starting a Ship at a New Camp.

Morris Ascheim, one of the pioneer barbers of the coast, died the other day at Carson, and Dan De Quille of the Virginia Enterprise tells this of him: Ascheim was one of those who rushed to Meadow Lake at the time of the mining excitement at that place. He opened shop under a tree, digging holes in the ground with a pick, in order to make his chair stand level. We had the first shave in the new shop, and once or twice during the operation Morris threw down his razor and took up his pick, in order to regulate a leg or two of the chair. He had his combs, brushes and other tools stuck up against the trunk of the tree, and was loud in his boast of having the biggest and best-lighted barber shop in the world. While we were being "polished off" about a dozen other customers, who had not seen a razor in from one to six weeks, dropped in from the hills and seated themselves in line upon a pine log to await their turns. The shop was a success from the start.

## PLUMAS ITEMS.

### News Called from the Columns of Our Quincey Exchange.

The National of April 15th contained the following:

Considerable snow yet on the La Porte road, and the mail goes via snowshoe.

Johnny Stark of North Arm has purchased 70 or 80 acres of land from George Herring. Price, \$30 per acre.

A man by the name of Samuel Brown got his skull broken on Thursday of last week in the Eureka mine, by a falling rock.

On Sunday morning Calvin C. James, a son of W. J. James, aged about 9 years, was drowned while fishing a short distance below the Nelson Creek bridge. He was with his two little brothers, and when he fell in they both jumped in to try to save him, but failed, and he was swept down by the current. The body was found about a quarter of a mile below the scene of the accident. He was buried at Nelson on Tuesday.

## A Chance for Ingenious Inventors.

The Norristown Herald contains a description of a newly-invented door lock which needs no key. But the Herald thinks married men who are in the habit of carrying a night key will kick against its use. It would be rather inconvenient to take the door off its hinges and lug it about with them until midnight or later. What is wanted is a lock with a key-hole that can be opened by simply winking at it when the male head of the house comes home and finds that incorrigible aperture making 300 revolutions a minute.

## Was It Penrose?

A young man from Ruby Hill, says the Mining News, while on a visit to San Francisco a few weeks ago, met two ladies on Nob Hill, on whom he sweetly smiled, etc. He did not know he had done wrong until, a few minutes after, two irate hussies came after him and introduced their shoemaker to his tailor.

## The Outlook in Mason Valley.

A farmer from Pizen Switch informs a GAZETTE reporter that the agricultural prospects of the valley are unusually good. Crops are in and well started, and ranchers have already begun to irrigate. The C. & C. road is proving a valuable auxiliary to the farmers of that section.

## Verdict for Plaintiff.

The jury in the Brown-Evans case, which has been on trial in the District Court for the past two days, yesterday returned a verdict for the plaintiff for the full amount claimed, being \$470 for pro rata repairs of the little Brown ditch.

## Plumbago.

The deposit of plumbago recently found near Washoe City seems to be showing up well. It is said that a good price has been offered for it. But it still remains to be determined whether the ore is sufficiently pure to possess a commercial value.

## Growing too Fast.

Hawthorne will soon be too large for its pantaloons. Every railroad or wagon train takes in an old house from Bodie, Aurora, Belmont, Grantsville, Virginia and other places. The town is full of idle men.

## Likely to Move.

Unless Virginia improves and business picks up the telegraph company will soon move the quadruplex and other repeaters to Reno and have a big force here.

## Something New Discovered.

Report comes from Hamilton that something new in the McConkey case has been unearthed, tending more than anything else to show that McConkey was murdered.

## Wait and See.

Mrs. M. T. Golden, the pioneer milliner of Reno, leaves for San Francisco to-night to select a large stock of millinery goods for this market. She will open in the rooms next to Brookins' store. In about ten days the ladies of Reno will see the finest stock ever opened in this market. Her regular advertisement will appear in due time.

## DOING WELL.

### An Old Renolite Looking for Gold in California.

J. A. Scott, the well-known mechanic, who went over the other side of the mountains on a prospecting expedition a short time ago, writes to A. H. Barnes from Fair Play, El Dorado county, that Rood and himself have a large piece of placer ground, and have dug a ditch three-fourths of a mile long to conduct water to the claim. They have a string of sluice-boxes set and will in a short time get down to real work with strong expectations of making a snug pile, if not a moderate fortune.

## The Second Trial of Combs.

Judge Edwards of Carson is anxious to have the second trial of Combs take place in Storey county. District Attorney Torreyson also favors Storey.

## Looking After Trespassers.

Government timber agents are kicking about the destruction of timber over in Lassen, on government land.

## NEW TO-DAY.

## NO USE FOR THEM.

Concerning Certain Relics of the Past—Dogs That Have Their Day.

George Stephenson's "Rocket" and the magnificent locomotives of to-day are built upon the same general principle, yet the machine with which the great engineer astonished his day is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine, but at this point all comparison ends and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases of easy treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson's goes on its way winning golden opinions from all sorts of people.

Yet in this very fact lies the leading danger to the people who buy and use this reliable and scientific article. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

**ROYAL BAKING POWDER**  
Absolutely Pure.

This Powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER COMPANY, Ltd., Wall Street, New York.
